

SPRINT #3

SPRINT RETROSPECTIVE MEETING

Purpose – to discuss how we felt about this sprint, to see what worked well and what did not work well. This meeting could also give insight into areas of improvement and how the challenges we faced could be avoided in future sprints.

11/10/2021:

Mellisha: Overall ,I am happy with the progress of the sprint, and I hope we will continue with this momentum for the next sprint

Jack: this sprint was short, but I managed to get the assigned works done in time. communication defiantly has improved since last sprint. Looking forward to the next sprint.

Kineta: Despite having an extremely short sprint, I think the team came together really nicely and worked hard to complete all the user stories for this sprint. The communication has improved, and I can see everyone making the extra effort. Proud of everyone and looking forward to taking this team spirit and energy into sprint 4.

An issue we have been experiencing is loadshedding. This is unfortunately out of our control, but I see that it does influence our work. Nevertheless, we power through

Mahdiyah Manjra: Although this sprint was extremely short, the team worked hard to complete the tasks.

The team communication has improved. The team has the momentum and skills to produce a quality product. I am proud of the team's efforts and excited to continue improving our project

Zahraa: I am happy with the work the team produced and the improvement in communication I am looking forward to delivering a great final product

Bianco Van Der Ross: I am happy with the work the team produced and the communication has improved a lot but could still improve more

The project is on course as we it should be ,major ups

Ryan: I am overall pleased with the work that has been produced, we keep improving each sprint. so, at this pace we should be able deliver a very good final product.

Deshan: The progress this sprint has been better even though this sprint was very short. Communication and collaboration has improved and everyone seems to be working harder. Hopefully progress can continue like this into the next Sprint and final sprint.
