

SPRINT #2

SPRINT RETROSPECTIVE MEETING

Purpose – to discuss how we felt about this sprint, to see what worked well and what did not work well. This meeting could also give insight into areas of improvement and how the challenges we faced could be avoided in future sprints.

27/09/2021:

Mahdiyah Manjra: I think that the group worked well together. Although there were initial issues with the synchronisation and communication between the two teams, the team worked hard and managed to pull through. I am happy with the team's efforts and excited to continue improving our project

Ryan: Improved communication from sprint 1. We once again delivered a good product. If we continue at this pace, we will most certainly finish all tasks required. I am happy with the progress we are making and the quality of work we are producing

Zahraa: I think sprint 2 progressed much better and communication improved greatly. I am happy with the work we have accomplished and hope we can continue to deliver a quality product

Mellisha: Overall, I am happy with the progress of the sprint, and I hope we will continue with this momentum for the next sprint

Kineta: I have a very positive feeling about sprint 2. We have learnt from our previous mistakes, and the team has worked hard to produce exceptional work. Hopefully we carry this over into the final two sprints. One concern I have is communication within the group. I can see a bit more participation from everyone, but it obviously could be better just to avoid misunderstandings and miscommunication.

Bianco Van Der Ross: I am happy with the progress of the sprint and hope this new structure and dynamic can be continued. Communication can still be improved but definitely a work in progress

Deshan: The progress this sprint has been better. Communication and collaboration has improved somewhat. Hopefully progress can continue like this into the next Sprint

Jack: Improved communication from sprint 1. We once again delivered a good product. If we continue at this pace, we will most certainly finish all tasks required. I am happy with the progress we are making and the quality of work we are producing
