SPRINT 4

SPRINT PLANNING MEETING

Date: 13th October 2021

Purpose of the meeting – to meet with the client and decide what the team will work on during the current sprint.

Minutes from the meeting with the supervisor:

1. Doctors and patients have the ability to cancel an appointment – Website
    This includes:
    - Doctor can cancel an appointment and the respective patient should be notified
    - Patient can cancel an appointment and the respective doctor should be notified
    - Remove appointment from database and free up that specific timeslot in the doctor's availability
    - Remove appointment from the respective doctor and patient home page

2. Doctors and patients have the ability to cancel an appointment – App
    This includes:
    - Doctor can cancel an appointment and the respective patient should be notified
    - Patient can cancel an appointment and the respective doctor should be notified
    - Remove appointment from database and free up that specific timeslot in the doctor's availability
    - Remove appointment from the respective doctor and patient home page

3. Notify doctor and patient when an appointment has been missed – Website
    This includes:
    - Notifying a doctor when an appointment has been missed
    - Notifying a patient when an appointment has been missed
    - This can be done with an email or with a popup / toast message

4. Notify doctor and patient when an appointment has been missed – App
    This includes:
    - Notifying a doctor when an appointment has been missed
    - Notifying a patient when an appointment has been missed
    - This can be done with an email or with a popup / toast message

5. Implement forget password
   This includes:
   - Implementing a forget password function on the login screen of the website, so that if a user has forgotten their password, they can still get access to their account.
   - This had already been implemented on the app

User story from the group (this user story was not given by Rylan)

6. User Interface
   This includes:
   - On the website, make sure that the website resizes and fills the whole screen correctly despite the screen resolution and the size of the screen.
   - On the website, make the colour of the welcome page/ login and registration one solid colour
   - On the app, when viewing the appointment history, the patient and doctor should not be able to add / change anything on the appointment form (view instead of edit)
   - On the website and the app, find a template for the emails to make them look more professional
